

PROVIDING THE HIGHEST
QUALITY
SERVICE SINCE 1983

 **Emergency Service**

Equipment failures are never convenient. Our emergency service ensures you are able to be up and running when times are critical.

 **After Hours Service**

Business hours not the best time to have your equipment serviced? We are happy to visit after hours to service equipment.

 **Holiday Service**

We understand your equipment needs repaired on any and all days. We are there for you on Holidays as needed!

Loaner Program

Loaner units are available to be brought out to our customers while your equipment is being repaired or for emergency needs.

Temperature Certification

Gives you a proper inspection record to ensure your equipment and recorders are reading accurately.

Parts Inventory

We keep a large inventory of the parts you need for many of the top manufacturers you trust!

Repair & Maintenance

Biomedical Refrigeration Services offers several options to keep your equipment protected.

ABOUT BIOMEDICAL REFRIGERATION SERVICES

As an industry expert with a commitment to the highest quality of customer service working with ULT Freezer and Scientific Refrigeration systems, Biomedical Refrigeration Services will always ensure your equipment is properly maintained. Founded in 1983 (formerly Richey's Services), our technicians are experts with all makes, models and manufacturers of equipment. We offer emergency service, after hours and on holidays to ensure your products will always remain protected!

PREVENTATIVE MAINTENANCE

A proper PM can help you find potential problems before they occur giving you peace of mind.

With over 40+ years in the industry, we understand how to protect your equipment from major failure and lost product. A proper preventative maintenance is the best investment you can make for peace of mind!
